

„National Activities towards Changing Consumption and Production Pattern”

Outline for NGO Country Reports to be published on the ANPED website

1. Is there a National Consultation towards Sustainable Consumption and Production Pattern?

If yes

2. How was it initiated?
(e.g. UNEP SCOPE program, Government initiated, NGO’s organised a meeting...)
3. Does it have a structure/agenda?
(includes: Is there a follow up or was it a single event?)
4. Which goals were identified?

If not

5. Are there other national (governmental or non-governmental) activities that can be seen as part of a Programm towards Sustainable Consumption and Production? (as called for in Chp. 3 of the Johannesburg Plan of Implementation)

If answer to question 1 and/or 5 is positive

6. Are the following key elements¹ dealt with?

	Ecological fiscal reform	Clean and eco-effective production	Education for sustainable consumption and production	Corporate responsibility and accountability	Information and public participation
Action made*					
Action mentioned*					
Generally addressed					
Not part of the process					

*If activities were made or mentioned please specify.

7. What do you require to be done from your national governments and other national stakeholders?
8. What do you require to be done from international actors like EU, UNEP, UNECE, ANPED?

¹ Key elements developed in the NGO consultation process towards the European Regional Roundtable on Sustainable Consumption and Production. <http://www.anped.org/PDF/NGO%20Ostend%20Statement.pdf>
